

Forklift Certification Training

Language Available:

- English
- Spanish

Student Count (per class):

- Min = 7
- Max = 10

Course Duration:

- 4-6 Hours

Course Materials:

- Handouts
- Quiz

Virtual Training:

- Not Optional

Course Overview

This comprehensive forklift certification program equips participants with the knowledge and skills necessary to operate various types of forklifts safely and efficiently, in compliance with OSHA Powered Industrial Truck Standard (29 CFR 1910.178) and industry best practices. Upon successful completion, participants will be eligible to take a written exam and practical skills demonstration to earn their forklift certification.

Discussion Topics:

- Introduction to Forklifts (Types, Classes, Terminology)
- OSHA Powered Industrial Truck Standard (29 CFR 1910.178)
- Forklift Safety Hazards and Risk Assessment
- Pre-Operation Inspection Procedures
- Safe Operating Techniques (Startup, Shutdown, Maneuvering)
- Load Capacity and Stability Considerations
- Lifting, Lowering, Stacking, and Transporting Techniques
- Refueling Procedures (if applicable)
- Emergency Procedures and Response
- Workplace Safety Rules and Regulations
