

Hazard Communication & Globally Harmonized System

Language Available:

- English
- Spanish

Student Count (per class):

- Min = 1
- Max = 25

Course Duration:

- 1 Hours

Course Materials:

- Handouts
- Quiz

Virtual Training:

- Optional

Course Overview

OSHA's Chemical Hazard Communication Standard is based on a simple concept that employees have both a need and a right to understand the hazards and identities of the chemicals they are exposed to while working. This HazCom Standard is designed to provide you with the information you need to work safely.

This training covers basic OSHA requirements for proper communication methods about hazardous chemicals in the workplace, including the modification of OSHA's Hazard Communication Standard to conform with the United Nations' (UN) Globally Harmonized System of Classification and Labeling of Chemicals (GHS) requirements.

Discussion Topics:

- Introduction to Hazard Communication
- Globally Harmonized System of Classification and Labeling of Chemicals
- Safety Data Sheets
- Manufacturer Labeling
- GHS Pictograms
- Hazard Classification
- Workplace Labeling
- Employee Responsibility
- Conclusion
